Dear Sir:

This is in response to the Office Action dated January 29, 2003, regarding the above-identified application.

REMARKS

Claims 1 through 44 remain in the application.

The Examiner has required restriction to one of the following inventions under 35 U.S.C. § 121:

Group I-Claims 1 through 34, drawn to the invention of a Gas-turbo machinery, compressor, classified in class 60, subclass 39.

Group II-Claims 35 through 44, drawn to the invention of a rotor of a generator, classified in class 310, subclass 61.

The Examiner has found that the inventions are distinct, each from the other, because the Groups I and II inventions are related as subcombinations disclosed as usable
